I superflui mattoni del led? ci sono dei led anche sulle chiod piggy back, questi che sotto qui mi servono solo per regolare se improvvisamente gli indicatori sono su o in a non voglio che lo siano. Male che vada non si montano.

[illegible]

Figure 1 illustrates a 16-processor system arranged in a 4x4 grid. The processors are labeled U0_A1 through U3_A4. The connections between processors are shown as pairs of lines, indicating a mesh topology with horizontal, vertical, and diagonal links.
