COMMENT OF THE FINAL PROJECT SUPERVISOR:

Throughout the internship Mr. George ANDREI has demonstrated excellent levels in grasping new concepts with sound scientific understanding and ability for critical thinking and analysis. Mr. George ANDREI was able to rapidly understand the state of the art, find out suitable bibliography and identify the problem given, in a structured manner. Most importantly, I appreciated his quality of assimilating new concepts in a pro-active manner. This allowed him to advance rapidly on the theoretical aspects of the subject. He was also able to work independently on the programming part. George ANDREI demonstrates great willingness in carrying out proposed ideas and come up with his own propositions. He carries great passion for science and demonstrates excellent levels of hard work in achieving the assigned goal. On the other hand, his cheerful personality and honesty makes him a good team member and pleasurable to work with. He possesses tremendous sincerity towards his objectives, which makes him an ideal student to work with.
