

## List of Tables

Table 1.1	The traditional industrialization education idea contrasts with the contemporary modernization education idea .....	11
Table 4.1	Case study on the public space of atrium of building in university -- spatial morphology .....	47
Table 4.2	Case study on the public space of atrium of building in university -- Space secondary division and vertical traffic .....	48
Table 4.3	Case study on the public space of flat hall of building in university -- spatial morphology .....	54
Table 4.4	Case study on the public space of outdoor space of building in university - - spatial morphology .....	57
Table 4.5	High atrium public space - top ceiling interface .....	58
Table 4.6	Flat hall public space - top ceiling interface .....	60
Table 4.7	Outdoor platform public space - top ceiling interface .....	61
Table 4.8	High atrium public space - vertical wall interface .....	61
Table 4.9	Flat hall public space - vertical wall interface .....	63
Table 4.10	Outdoor platform public space - vertical wall interface .....	64
Table 4.11	High atrium public space - ground interface .....	64
Table 4.12	Flat hall public space - ground interface .....	66
Table 4.13	Outdoor platform public space - ground interface .....	67
Table 6.1	Basic information table of site construction .....	85

## List of Figures

Figure 1.1	Classroom diagram of university of bologna (left) and inner courtyard of university of bologna teaching building (right).....	10
Figure 1.2	Photo taken inside the MIT media lab .....	11
Figure 1.3	Two MOOC models: massive online courses (left) and peer-to-peer online communication (right) .....	12
Figure 1.4	Focus on the design practice of "non-traditional learning space" .....	13
Figure 1.5	The traditional old teaching building in China .....	14
Figure 1.6	Comparison of "92 indicators" and 2018 new indicators in general ....	16

Figure 2.1	Public space, openness and belonging .....	22
Figure 2.2	The relationship between public space, indoor space and outdoor space in university buildings .....	22
Figure 2.3	Public place -- the identification of public.....	23
Figure 2.4	Observe the texture of brick walls from different distances .....	24
Figure 2.5	At least five ways to promote or inhibit communication .....	25
Figure 3.1	Public spaces classification .....	29
Figure 3.2	Gathering space .....	30
Figure 3.3	Staying space.....	31
Figure 3.4	Traffic space.....	31
Figure 3.5	Multi-use space .....	32
Figure 3.6	Schematic diagram of public space in atrium (with glass roof) .....	33
Figure 3.7	Staggered atrium space section diagram .....	33
Figure 3.8	Schematic diagram of public space of hall (hall and viewing hall) .....	34
Figure 3.9	The spatial section of the flat floor hall located in different positions of the building .....	34
Figure 3.10	Schematic diagram of linear corridor public space (internal corridor) ..	35
Figure 3.11	Schematic diagram of public space profile of linear corridor. Right to left are external corridor, unilateral internal corridor and bilateral internal corridor respectively .....	35
Figure 3.12	Schematic diagram of public space of courtyard square (inner courtyard) .....	36
Figure 3.13	Schematic diagram of roof public space (roof garden and terrace) .....	36
Figure 3.14	Schematic diagram of public space classified by spatial interface .....	37
Figure 3.15	Schematic diagram of top ceiling interface .....	38
Figure 3.16	Schematic diagram of vertical interface around .....	38
Figure 3.17	Schematic diagram of ground interface .....	38
Figure 4.1	NTU learning center atrium .....	40
Figure 4.2	NTU- Jujube - shaped atrium .....	41
Figure 4.3	The public Spaces organized around the atrium occupy most of the ground floor .....	41
Figure 4.4	Polak building atrium .....	42
Figure 4.5	Public space surrounding a square atrium .....	43

Figure 4.6	The size of the atrium is enlarged layer by layer to obtain larger lighting area .....	43
Figure 4.7	A multilevel public space around the atrium .....	44
Figure 4.8	Atrium plan composition .....	44
Figure 4.9	A resting space placed in the atrium .....	45
Figure 4.10	The atrium space integrates old and new elements .....	45
Figure 4.11	Concept expression: put the bridge in the canyon .....	46
Figure 4.12	The stepped volume in the middle is both a traffic space and a place for communication and learning .....	46
Figure 4.13	Refurbished public hall on the ground floor (left) and library entrance (right).....	48
Figure 4.14	Plan of public space on the ground floor .....	49
Figure 4.15	The private spaces embedded in the walls are welcomed by students ..	49
Figure 4.16	An open reading space on the top floor of the building .....	50
Figure 4.17	Plan of public hall on the third floor .....	50
Figure 4.18	White printed glass curtain wall .....	51
Figure 4.19	White printed glass curtain wall .....	51
Figure 4.20	The steps cooperate with the undulating roof to form a public space for staying .....	52
Figure 4.21	The steps run through the core of the building and extend outside .....	52
Figure 4.22	Plan (above) and space utilization status .....	53
Figure 4.23	Place the large furniture in the space to increase the sense of space layers and meet various needs at the same time .....	53
Figure 4.24	The roof becomes part of the park, and the external public space of the whole building is completely open .....	55
Figure 4.25	Schematic diagram of sunken courtyard .....	55
Figure 4.26	The roof overlooks the landscape and terrace .....	56
Figure 4.27	Plan of roof garden and terrace .....	56
Figure 4.28	Schematic diagram of structures placed on the underside of public space in atrium left: steps right: construction sketch .....	66
Figure 4.29	Schematic diagram and effect of atrium glass roof .....	69
Figure 4.30	Glass roof profile details .....	70
Figure 4.31	The roof of the Polak building is lit with a grid structure .....	70

Figure 4.33	Light tube at the top .....	72
Figure 4.34	Six basic curtain wall systems .....	72
Figure 4.35	White printed glass curtain wall .....	73
Figure 4.36	Horizontal profile of curtain wall joints .....	73
Figure 4.37	Continuous glass interface facing the square .....	74
Figure 4.38	Detailed models and photos of glass curtain wall .....	74
Figure 4.39	Glass curtain wall components that allow ventilation .....	75
Figure 4.40	Glass curtain wall components that allow ventilation .....	76
Figure 4.41	Glass ribs serve as support for floor-to-ceiling Windows .....	77
Figure 4.42	Sun plate light steel partition .....	77
Figure 6.1	Design renderings .....	83
Figure 6.2	Location map of the project, the plot is located at the core of tsinghua university in Beijing .....	84
Figure 6.3	Lot A, riverside section west of xuetang road, tsinghua university .....	86
Figure 6.4	Photo of the present situation of plot A in riverside section west of xuetang road, tsinghua university .....	87
Figure 6.5	Complex traffic .....	88
Figure 6.6	View from the northwest side of the platform on the roof of wenbei ...	88
Figure 6.7	Rich landscape resources .....	89
Figure 6.8	Core location .....	89
Figure 6.9	Second floor plan of wenbei building .....	90
Figure 6.10	Corridor usage status .....	91
Figure 6.11	IUP classroom .....	91
Figure 6.12	Top floor roof platform usage status .....	91
Figure 6.13	Master plan .....	92
Figure 6.14	The site addresses the core concept .....	93
Figure 6.15	The process of building form formation .....	93
Figure 6.16	Plan of the first floor, the main entrance of the students .....	94
Figure 6.17	Plan zero floor plan, main entrance of the literature museum .....	94
Figure 6.18	Plan underground floor plan, literature museum part .....	95
Figure 6.19	Floor plan, viewing floor .....	96
Figure 6.20	The public hall on the top floor of the new building is seen from the building elevation .....	96

Figure 6.21	Partial sketches of three core public spaces .....	97
Figure 6.22	Atrium section space .....	98
Figure 6.23	Atrium section space .....	98
Figure 6.24	Atrium glass roof structure system .....	99
Figure 6.25	Viewing hall concept drawing .....	99
Figure 6.26	Viewing hall space .....	100
Figure 6.27	Viewing hall french window section details .....	100
Figure 6.28	Perspective of building entrance square .....	101
Figure 6.29	Large steps provide a stay and leisure area .....	101
